Skills

Languages:

- JavaScript/TypeScript
- HTML
- CSS
- PHP
- MySQL

Libraries & Frameworks:

- NextJS
- SvelteKit
- TailwindCSS
- Laravel

Debugging & Problem Solving:

- Expert in debugging and refactoring inefficient, unreliable or buggy code.
- Versatile in adapting design concepts into efficient, scalable front-end code, ensuring fidelity to UX/UI designs.

Dedicated **Full Stack Developer** with a passion for merging innovative design and user experience in feature-rich applications. Focused on building responsive, user-centric platforms, I am seeking a challenging role to further develop my skills in a dynamic environment.

Experience

Brew Digital, UK, Remote

Nov 2023 - Present

Full Stack Web Developer

- Led the comprehensive rebuild of our largest client's Next.js homepage, significantly improving user experience and interface design.
- Optimised deployment workflow using GitHub Actions & CLI scripts, achieving a 90% reduction in code release and deployment times.
- Modernised our largest client's website by refactoring the codebase and removing 3 years worth of technical debt.
- Solutions owner of multiple projects, leading development on new features and ensuring robust, maintainable, quality code.
- Recognised as the key problem-solver for both critical and non-critical technical issues, improving code reliability, performance and client satisfaction.

Jan 2023 - Nov 2023

Associate Web Developer

- Fixed critical build step errors related to large slug sizes on Heroku caused by unused packages that were preventing our largest client's website from deploying.
- Led the transition from Heroku to Vercel, enhancing system performance and stability whilst reducing deployment times by 60%.
- Added robust error reporting to our projects, significantly reducing time to find and action bugs.

BookaBuilder UK, Essex

Feb 2022 - Dec 2022

Junior Web Developer

- Built a support ticket system to improve issue tracking and resolution.
- Created a review system for users to leave feedback on tradespeople's profiles.
